👨‍💼 **Website Creator:** Abhisek Panda

🌍 **Portfolio:** https://abhisekpanda072.vercel.app/

🐙 **GitHub:** https://github.com/MrAlpha00

💼 **LinkedIn:** https://www.linkedin.com/in/abhisekpanda2004/

🚧 **Important Note:** This website has been developed as a personal learning project to sharpen my skills in full-stack web development — specifically using the MERN stack:

🧠 **MongoDB** for the database	🚀 **Express.js** for the backend
⚛️ **React.js** for the frontend	🛠️ **Node.js** as the runtime engine

🎯 Purpose of this Project:

This is not an official ICC product. I built this clone project as a part of my journey into professional web development. The goal was to:

- Explore real-world web scraping using Puppeteer, Axios, and Cheerio 🕷️
- Practice routing, dynamic UI rendering, and API integration 🧩
- Experiment with clean UI/UX practices and responsiveness 📱💻🖥️
- Push myself to learn by recreating something from scratch 🏗️

📊 About the Content:

The data (such as rankings, players, and photos) has been scraped from the official ICC website (https://icc-cricket.com) purely for educational and demonstration purposes.

⚠️ I do not claim any ownership over the content, design, or media. All trademarks, logos, photos, and statistics belong to ICC – International Cricket Council.

📸 Player images and tournament graphics are sourced only to recreate a real-time UI experience for learning purposes and are not being used commercially or maliciously.

❌ No Affiliation Notice:

This site is not affiliated with, endorsed by, or associated with ICC or any of its partners, sponsors, or media outlets.

It is a fan-made clone and a portfolio piece for skill demonstration only.

🧠 Calling Developers, Learners & Recruiters!

If you're someone who's into:

- Learning the MERN stack
- Working with real-time data APIs and scraping
- Exploring frontend or backend architecture
- Collaborating on open-source projects

📬 Feel free to reach out!

Let's connect on LinkedIn or check out more of my work on GitHub. I'm always up for feedback, collaboration, or just tech talk 🤝✨

🧪 This project = Code + Coffee + Curiosity 🧉 💡 💻

Thanks for visiting this experimental build! Hope it inspires you to build something of your own 🚀

Journey Timeline

2025 • **Elevora AI Launch**

Created comprehensive AI-powered education platform

2024 • **Full-Stack Mastery**

Mastered MERN stack and modern web development

2023 • **Programming Journey**

Started learning web development and programming

My Philosophy

"Code + Coffee + Curiosity = Innovation"

I believe in the power of continuous learning, community collaboration, and building solutions that make a real difference in people's lives. Every project is an opportunity to learn something new and help others grow. 🚀 ✨
